TAIAO

PRESENTATION

10AM: INTRODUCTION / WELCOME

HMV Landcare Trust
Peria School
Te Paatu ki Kauhanga
Kohumaru Landcare

10.30AM: TAONGA NATIVE SPECIES

DEAN BAIGENT - FOREST AND BIRD

This session explores the importance of landscape-scale thinking, focusing on bird flight paths, wildlife corridors, and stream networks that link habitats across Te Tai Tokerau.

11.00AM: KIWI LIVING LOCALLY

LESLEY BAIGENT - KIWI COAST

This session explores how to identify kiwi sign, recognise their unique calls, and understand their habitat needs. Learn about kiwi aversion training for dogs and get introduced to the "Know Your Dog" programme - empowering communities to be proactive kaitiaki for our native manu.

11.30AM: NGĀ AWA

MADDY JOPLING - DOC

Nga Awa catchment project in Doubtless Bay, recent research, native freshwater species, projects underway, new innovations.

12.00PM: KAITIAKITANGA IN ACTION

LOCAL GROUPS - 5 MIN KORERO

- Honeymoon Valley Landcare
- "Ka Waiaatata Maungataniwha" Project
- Friends of Rangikapiti
- Kohumaru Landcare

DAY

SCHEDULE

1PM - 2PM: INVASIVE WEEDS

GRAHAM NORTON - NRC
MARIANNA FENN - WEED WATCH
Kōrero on eco-gardening, early weed detection and effective action. This session will highlight the power of doing it right the first time - through coordinated, landscape-scale action to tackle current weed challenges across Te Tai Tokerau.

2.00PM: - 3PM ANIMAL PEST CONTROL

STEVE ALLAN AND
KELLY PETERSEN

This session covers practical approaches to trapping possums, mustelids, feral cats, rats, pigs, and mynas. Learn about the best trap options, bait types, and how to get started with predator control in your area.
